CAREER PATH

Career Options:

Potential careers include auto body repairman, auto body repair technician, and fabricator.

Potential employers include automotive dealerships, heavy duty dealerships, government agencies, and independent auto shops.

Advising Notes:

- This degree can be completed using either the local AA/AS general education (GE) pattern or the Cal-G ETC transfer GE pattern. See a counselor to determine which pattern is best for you based on your academic goals.
- Students can substitute ESLW 340 for ENGL C1000/C1000H (formerly known as ENGWR 300/480).

Scheduling Notes:

- All ACT courses are offered at the Mather Center. The AT courses are offered at the ARC main campus.

Other Notes:

- Accidents happen on the roadways and trained technicians are needed to fix the damage. Our instructors bring real-world experience to teach the skills needed to reshape and restore a variety of vehicles. Training is given in both theory and practical skills. Students receive practical on-the-job skills from frame to fully repaired body fabrication.
- At the end of the fourth semester, students qualify for the **Automotive Collision Technology certificate**.

Semester 4

13 Units
