Notes:

This certificate offers training in music composition geared towards gainful employment in the television, film, video gaming, internet and commercial music industries.

Upon completion of this program, the student will be able to:

- compose music for a variety of commercial applications, utilizing composition techniques from a range of musical styles and periods.
- sync original music with video footage of film, television, animation and video game applications.
- create an online portfolio of original music representing a variety of multimedia modalities.

Zero Textbook Costs (ZTC):

The Zero Textbook Costs designation and logo are added to any course that provides free access to all required instructional materials. These are typically shared with students through Canvas. Courses that are designated as ZTC may still require students to purchase supplemental materials such as lab coats, a calculator, art supplies, etc. See full definitions and searching tips on the [Zero Textbook Costs page](#) of the college website.
