### Potential Career/Options After Completing a Bachelor's Degree:

The opportunities for geographers are as varied as the scope of geography itself. Geographers are found throughout the public and private sector, though rarely in positions with the title of Geographer. When combined with appropriate internships and/or other work experience, a baccalaureate degree in geography is excellent preparation for careers such as natural resource management, environmental consulting, urban and regional planning, and elementary and secondary teaching. A baccalaureate degree in geography can also act as a stepping stone to graduate education in geography or a related field, such as Geographic Information Systems (GIS).
